EQUITONE [natura]

Sobres et intenses à la fois, les panneaux EQUITONE [natura] laissent apparaître l'aspect minéral de la matière tout en procurant un effet de profondeur dans la masse.

Doté d'une finition mate, EQUITONE [natura] bénéficie d'un toucher soie à l'aspect extrêmement doux qui accentue son caractère naturel et subtil.

La nouvelle technologie de coloration permet l'application d'une lasure acrylique colorée qui renforce la résistance des panneaux.
